

Our new village will be nestled on 5 acres of land in the South Florida area. The state-of-the-art building is estimated to be 50,000 square feet and will provide pediatric medical services to children with complex medical needs. Will you help champion our project?

No child or young adult with a disability shall be left behind. Join us and see our vision come to life!

We are committed to setting the standard for children in South Florida where hope for families may feel too far to reach. With your help, we can make a difference and impact children's lives here in South Florida.

ABOUT US

PATCHES is a not for profit Pediatric Clinical Care Center providing nursing and therapy services to medically fragile children from birth to age 21. At PATCHES we see beyond a child's diagnosis and believe that EVERY child has a right to compassionate and culturally sensitive medical care, regardless of their ability to pay for service.

OUR VISION

Our vision is to create an accessible nursing and therapeutic environment that fosters growth and development in the children, families, and the community we are called to serve. They say it takes a village to raise a child, and that's why we need your help. PATCHES needs people who believe in helping us grow our mission, but more importantly, these children need you.
